Protective Rubber Door

NOTE *In the image above, the protective rubber door is in the open position for illustrative purposes. This door should remain closed when not using any of these ports.*

Protective Carrying Case

The 802 AWE includes a protective carrying case with the following features:

- Molded form-fit design that includes an impact resistant foam core with coated ballistic nylon finish to provide maximum protection
- High-strength zipper to ensure secure closure
- Adjustable Velcro hand strap
- Removable shoulder strap (not shown)
- Metal D-rings for shoulder strap or line hook with reinforced stitching throughout
- Front flap with magnetic closure provides full access to the screen, keypad, and bottom ports when open
- When the front flap is closed, it provides protection to the screen and keypad as well as the bottom ports
- Convenient belt clip for easy portability. To remove clip, turn it 90° and slide off.
