Thank you for your purchase

- **High Speed On-Chip Micro Computer**
CPU(Central Processing Unit) has a built in high speed microcomputer with memory (ROM, RAM), communication port, and analogue digital converter. The simple circuit design reduces defects and the digital functions make it convenient for the users.
- **PLL (Phase Locked Loop)**
By adding the PLL (Phase Locked Loop)feature to the Broadcast reception circuit, this equipment was designed to pick up frequencies accurately from each broadcasting station to provide clear quality pictures that greatly increase the reception quality.
- **Automatic VHF/UHF Decoder**
All the channels of VHF and UHF can be viewed without converting to UHF/VHF
- **TV/AV/CATV Selection**
While operating the TV and the AV(Video) at the same time, pressing the AV button will allow the user to easily switch from TV mode to AV mode and CATV.
- **Blue screen for non-receptive channels**
The screen of the channels are not broadcasting will appear in blue..
- **OSD(On Screen Display)**
This feature provides an on screen display of the menu (Channel, Volume, Color, and Tint...etc) for easy operation.
- **Channel Seek Function**
Allows the selection of the available channels by scanning the TV/CATV domain. Convenient Channel Selection.
- **Digital Control Function**
Accurate step-by-step adjustment is available with the microcomputer activation Digital Control Function: Channel, Volume, AV/CATV Select, Bright, Color, Tint. This product uses a digital control method, therefore, there are less defects in this products.
- **Remote Control Function**
Easy to control the Power, Channel, Volume, AV/CATV select, Bright, Channel seek and Audio mute by Remote Control Unit.
- **The good quality of sound by car stereo**
Select the frequency of 88.4MHz or 88.6MHz using FM transmitter.
- **Power indicator LED**
Stand-by LED (Green) to recognize the remote control signal and Power LED(Red) to recognize power-on status
- **Adjustment of screen size**
You can adjust screen size with 5 types (Normal, wide, wider, cinema and zoom)
- **16:9 Display Screen**
The display is the same rate as movie screen.
- **Built-in LNA (Low Noise Amplifier)**
Improve the efficiency of TV reception.
- **Pivot Function**
Able to reverse screen (360°:Up, Down, Right and Left)

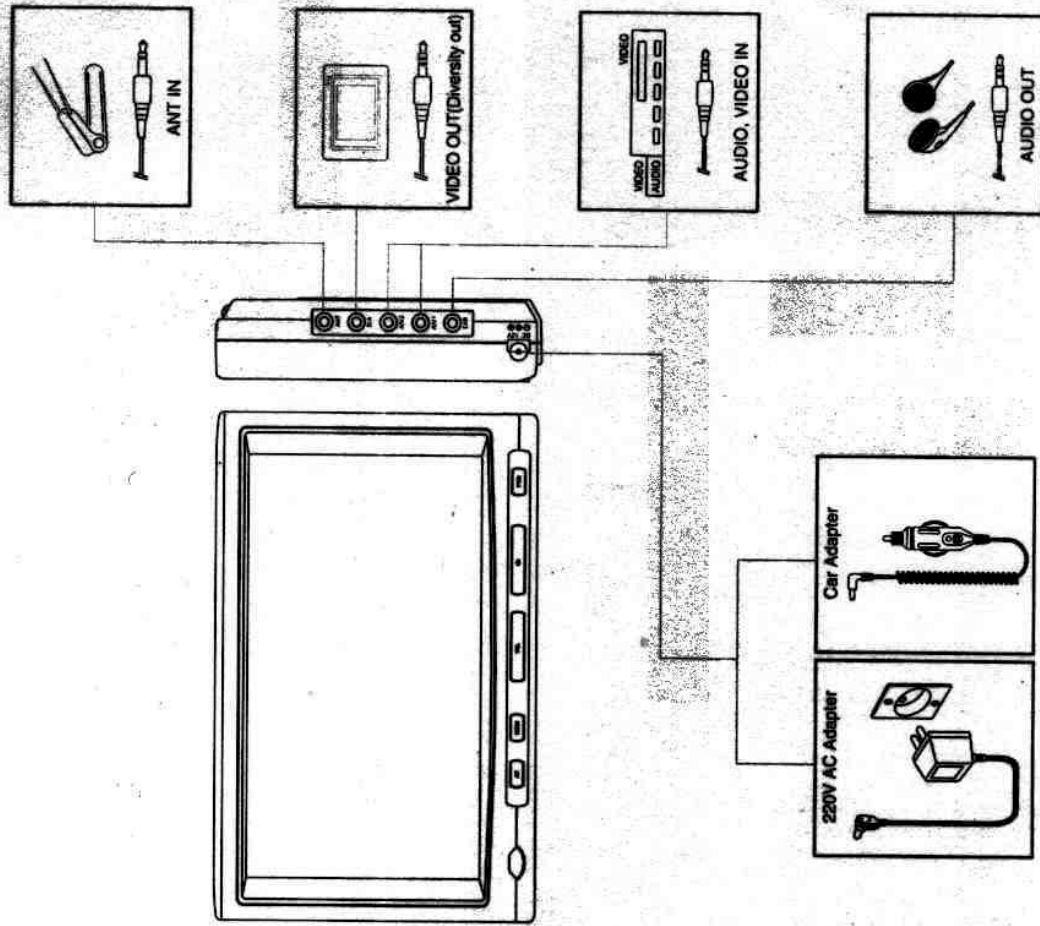

- Check the parts and accessories before operating this product

	SDT-70SK TFT-LCD COLOR TV	- Portable TFT-LCD TV produces high resolution, full color pictures. - Connects to any monitors. Built in tuner makes it a handy portable TV. - Connect to car navigation systems, car videos, and other various AV output systems
	AC/DC Adapter	Provides power source to the base unit.
	AV Cable	Connect the base unit to other AV output systems (ex: VCR)
	Car Adapter	Allows operation from car battery.
	Bracket	Used to secure the product when operating inside a vehicle.
	Instruction manual	Instruction manual
	Remote Control Unit	Remote Control

Safety Precautions

Do not open or disassemble product. The LCD TV utilizes high voltage current which is dangerous; tampering with the LCD TV may cause product breakage, fire, and electric shock. This may lead to product failure.

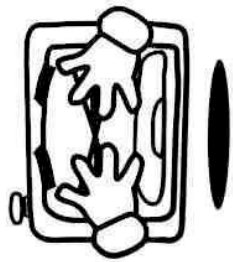

Do not install in rocky areas or on uneven surfaces. This may lead to product failure.

Do not install in wet places, and do not store in areas exposed to dust or other foreign material.

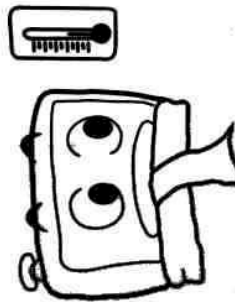

Do not damage the electric cord, or touch with wet hands. This can increase the fire hazard.

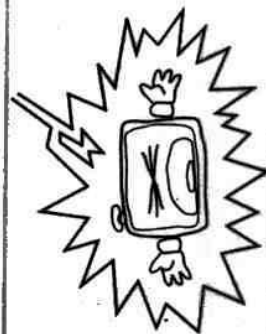

Do not use the product while driving. Accessing the product while operating a vehicle may lead to traffic accidents and is strictly prohibited.

Unplug the power cord before cleaning the product. Wet a rag with light detergent. And wring to near-dry before wiping the surface. Do not use benzine or other chemical cleaners since they may cause discoloration, dissolution, or peeling.

Do not store in places subject to dramatic temperature variations. If the product has been moved from an area of low temperature to an area of high temperature, the product may require adjustment for proper operation.

During severe thunderstorm/heavy lightning or extended periods without use, unplug the power cord(cigarette Jack) and refrain from touching the antenna.
