ID Label/Location
FiberLeap Access Unit Model FL60-1250 -AL1, -BL1

The Access Unit ID Label is required to include the FCC ID and the statement:

“This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.”

In accordance with part 2 section .925 and .926 of the commission’s rules. The label is shown below. Since there are two units, which vary in frequency, referred to as a type A and a type B unit, there are two labels to differentiate.
