

USER'S MANUAL

USER MANUAL FCC REQUIREMENTS

This light device has been tested and found to comply with the limits for Consumer RF Lighting Device, pursuant to Part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment producing and using can radiate radio frequency energy , and if not installed or used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

1. Use only on 120 volt, 60 hertz.
2. Never disassemble or modify --- any changes could void the user's authority to operate this device.
3. Not for use in totally enclosed fixtures.
4. Risk of electric shock --- do not use where directly exposed to water.
5. This device is not intended for use with emergency exit fixtures or emergency exit lights.
6. This product could produce interference when used near a TV , radio, wireless remote control or maritime safety communications equipment or other critical navigation or communication equipment operating between 0.45-30MHz. If interference should occur, move the lamp away from the appliance a distance of three feet or more. Or, plug the lamp or the appliance into a different outlet.
7. To prevent burns, do not touch the lamp's glass tube during operation or immediately switching off the power supply.
8. Don't grab this product's glass tube during installing or exchanging this device. The right way is to grab the plastic parts during installing it by switching off the power supply.
9. Not for use with dimmers, electronic timer or photocell devices or touching sensor.
