User Manual Information
OEM 410

History

Version 1.0 – First release 28th of March 2003

1   Introduction

I2r Ltd. is a wholly owned UK subsidiary of Sirit Technologies inc. of Toronto Canada and forms the design and development arm of the corporation.

This document covers the User Manual Information of the OEM 410 combined RFID module when fitted to the Agfa Drystar 5500 series printers.

There is no specific document "User Manual" this is because the module is completely transparent to the end user.

There is how ever one specific note for the installation instructions which reads as follows "When the OEM 410 is installed in the final product its FCC ID label is not visible therefore the final product should display a label including the text "Contains Transmitter Module FCC ID: P5ROEM410V12".
