**Subject:** Metrak #13689 General Fast Trading Ltd. FCC ID: P8ERCB49RX

Hi Alice,

Engineer has reviewed and he has the following issues:

RT questions:

1. Was the EUT, a superregenerative receiver, cohered during testing, as required by C63.4?
2. Were radiated emissions measured up through 1 GHz, as required by Section 15.33(b)(1)?
3. I note that this is a 49 MHz receiver. An application for a transmitter, but operating at 27 MHz, FCC ID: P8ERCB27TX, was recently received. What is the FCC ID of the transmitter associated with the EUT?
