Hi Tom,

The review is complete. For this application, there is only one informational item. A reply is not necessary. Please note that I will send a notice for the related Part 90 application in a few minutes. The IC review may not be complete until later today or tomorrow.

Q1. This item is informational. The test report submitted included test results from a previous certification with operation in both the 2.4 GHz and 5.7 GHz bands. Whereas this application includes only 2.4 GHz unlicensed operation, the results of the test report are acceptable for 2.4 GHz. The remaining portions of the test report with measurements for 5.7 GHz are outside the scope of this application and are disregarded. Operation in the 5.7 GHz band is not allowed under this application. A reply to this item is not required. This correspondence will be included with the application filing.

Best regards,

Tim Dwyer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
