Line in Cable: 1pcs

CAUTIONS

To ensure the proper operation, all the safety and operating instructions should be read carefully before connection and operation.

To prevent fire or shock hazard, DO NOT expose the Speaker to rain or moisture.

Do not expose the Speaker extreme temperatures, excessive moisture, rain or sand. Never use this device in high temperature or in high humidity. The best operating temperature is between 5°C~40°C.

Do not place the appliance on or near a hot gas flame, electric element, and

heaters or in areas subjected to direct sunlight.

Don't block any ventilation openings.

Clean the Speaker only with a dry cloth.

This product is intended to be used only with the power supply provided.

The socket-outlet shall be installed near the equipment and shall be easily accessible.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC CAUTION

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.
