

XPERT™ 2000 PRO

Features

Available white-box versions:

- 32MB AGP
- 16MB AGP
- 8MB AGP with optional Digital Visual Interface (DVI) connector for Digital Flat Panels (OEM availability only)

The 3D and DVD Value Leader

- No other graphics upgrade offers so many features at such a low price
- Gives PCs 32MB of graphics memory at the price of 16MB
- Perfect graphics upgrade for Pentium® II 300 MHz (or compatible) systems and up
- Avoid the pitfall of high graphics costs by adding 32MB and DVD in one solution

32MB of Graphics Power!

- Get the graphics horsepower that today's top 3D games crave
- Up to 32MB of on-board memory delivers incredible 3D visual quality
- Experience smooth detailed 3D graphics action and rich 3D textures like fog, water depth and lighting
- More memory also means faster 3D game play with no jerkiness

Hardware DVD Video Playback

- Built-in hardware DVD technology saves you the hassle and expense of buying a separate MPEG-2/DVD decoder card
- Process full-frame rate, full-screen MPEG-2 or DVD video
- Free up a valuable slot in your computer

ATI RAGE 128 PRO 3D and 2D Graphics

- ATI RAGE 128 PRO graphics technology
- Maximum 3D resolution of 1920x1440 (16-bit color or 65,000 colors)
- 32-bit true color (16.7 million colors) 3D graphics up to 1920x1200
- Advanced 3D features including an 8 million triangles/second setup engine, twin cache architecture, complete alpha blending, video textures, texture lighting and single-pass multi-texturing
- Power all business applications with 32-bit true color 2D graphics support up to 1600x1200 at 85Hz

Acceleration of DirectX, Direct3D and OpenGL applications

- Full acceleration of, and compliance with, Direct3D and OpenGL applications
- Experience cool effects like Z-based fog for incredible realism with advanced 3D architecture
- Optimized for DirectX, supporting DirectX features such as multi-texturing, stencil planes and bump mapping
