Subject: Original Application for Certification of Low Power Communication Device  
Transmitter  
900 MHz Wireless Baby Monitor, FCC ID: PBITS900A

Gentlemen:

Enclosed find Technic Star Ltd.'s Equipment Authorization dated October 30, 2000. This device is in compliance with Part 15, Subparts B and C and in accordance with Section 15.249 of the FCC Rules. On October 21, 2000 I mailed FCC Form 159 with fee check #J368752 in the amount of \$50 for issuance of Grantee Code PBI and on November 1, 2000 I mailed FCC Form 159 with fee check #J368679 in the amount of \$985 for the subject Certification application. Note, for unknown reason, electronic issuance of FCC Form 159 incorrectly stated this application required payment of \$50 plus \$985 for total of \$1035.

The subject device is a battery operated on two channel baby monitor that will transit on nominal 905.469 and 906.840 MHz frequencies. This device employs FM transmission with FSK modulation and has a permanently attached antenna. This device's associated monolithic superheterodyne receiver will be authorized under DoC.

This EUT was tested in accordance with ANSI C63.4-1992 to show compliance with FCC Parts 15C and 15B limits.

Should you have any questions or comments, please contact the undersigned. Thank you for your attention and cooperation in this matter.

Sincerely yours,

Richard Mullen
