Attention: Stanley Lyles

Subject: Amendment to class 2 grant for Vyyo FCC ID PBJV284-A,
731 Confirmation Number: EA614469

Hi Stan,

On 18 January a class 2 permissive change grant was issued. The purpose of the permissive change was to include additional transmitter bandwidths:

BW: 200 kHz Emission designators: 200KD1W, 200KG1W

BW: 325 kHz Emission designators: 325KD1W, 325KG1W

BW: 400 kHz Emission designators: 400KD1W, 400KG1W

It appears I did not correctly include these in the Form 731 for the class 2 application.

Please add these to the grant, I believe this can be done since the grant was issued less than 30 days ago. If there is anything else you need from me, please let me know.

Thank you in advance for your assistance.

Sincerely,

THOMAS N. COKENIAS
EMC Consultant
Agent for Vyyo Inc.
