

Functions & Settings - Chapter.03

IV. How to Search a Song

- Enter English Words
[1] → B → C [2] A → E → F [3] D → G → H → I [4] J → K → L
[6] M → N → O [7] P → R → S [8] T → U → V [9] W → X → Y [0] SPACE
- Enter Number Words
[1] → 1 [2] → 2 [3] → 3 [4] → 4 [5] → 5
[6] → 6 [7] → 7 [8] → 8 [9] → 9 [0] → 0
- Enter Symbol Words
[1] . → , → : → ; [2] ' → " → ` [3] _ → = → ~ [4] + → - → * → / [5] ! → # → \$ → %
[6] & → ? → @ [7] ^ → W → I [8] (→) → < → > [9] [→] [0] SPACE

(The search function disregards spaces. E.g. : If you want to search a song whose title is "A DONDE VOY," you only have to enter "AD" (without space in between characters) to perform the search.)

- Enter numbers Press the [0] ~ [9] buttons to enter numbers
- Examples
 - Enter "TOU" : Press [8] once → [6] three times → [8] two times
 - Enter "ABC" : [1] once → after the list changes → [1] two times
→ after the list changes → [1] three times

MY-MIC

- 1 You can save your own setup for a certain song that has been set while it is playing, such as the volume of music and melody, the microphone, microphone echo effect, and real sound, as well as the tempo and key information, and recall the setting when you want to sing the song again.

2 MY-MIC : SELECTING A SONG

- Pressing the [MY-MIC] button while selecting a song shows you the stored list of MY-MIC Songs.
- Select a song from the MY-MIC Song List and press the [▶/■] button to play the song with the stored setting.

3 MY-MIC : SAVING A SONG

- Press the [MY-MIC] button as a song is playing to save the song's current setting.
- If the song information has already been stored, it will be updated with a newer setting.

Chapter.03 - Functions & Settings

4 MY-MIC: DELETING A SONG

- Press the [MY-MIC] button while selecting a song to see the stored list of MY-MIC Songs.
- Using [▼], [▲], [◀◀], [▶▶] buttons to select a song to delete, and push the [RES] button to delete the selected song.

BACKGROUND THEME AND SCORE CHART

1 THIS FUNCTION CAN ONLY BE SET WHILE SELECTING A SONG

- If you have stored a song in the MY-MIC Song List, press the [MY-MIC] button to see the MY-MIC Song List and push [MY-MIC] again.
- If you do not have a song stored in the MY-MIC Song List, just press the [MY-MIC] button.

2 BACKGROUND THEME

- You can select any theme from a set of nine different themes as your background theme.
- Press [0] ~ [9] number keypads to set the theme.

[0] : Do not set any background theme.
[1] Love / [2] Party / [3] Summer / [4] Nature / [5] Carnival
[6] Sports / [7] City / [8] Country / [9] Tour

Once a background theme is set, only the selected image will appear on the background.

※ If you have background images stored in an SD Card, the setting in the Background Theme will be disregarded and only the images on the SD Card will be chosen.

3 SCORE CHART

- The Score Chart shows the number of songs that you have played so far as well as the corresponding scores.

JUMP PRELUDE / INTERLUDE (JUMP)

- 1 You can use JUMP only during the prelude or interlude of a song.

- 2 Press the JUMP button during the prelude or interlude to proceed to the part when the song's lyrics begin

REAL SOUND (MULTI-VOICE SONG)

1 MULTI-VOICE SONGS CONSIST OF THREE PARTS

- LIVE : Only music is played.
- VOCAL : The voice of the actual singer is played together with the music.
- CHORUS : The reprise part of a song and specific instruments are played

2 VOCAL

- The voice of the singer is played together with the music.
- If you want to mute or activate the voice of the singer, press the [VOCAL] button to turn it ON or OFF.
- If there is input signal to the microphone when the Guide Vocal Assist setting in the environment setting is ON, VOCAL is automatically turned OFF.

3 VOLUME ADJUSTMENT

- Press the Real Sound [-], [+] buttons on the remote controller to adjust the real sound volume

SCORE

1 DISPLAYING A SCORE

- Only songs with a score will show a score.
- The score appears on the screen as soon as the song starts.
- ※ During playback, the song's title recedes behind the score.
- The score will disappear from the screen if the user uses different functions such as searching a song, real-time song search, adjusting the music volume, melody, microphone and echo effect. The score reappears with the next measure.

GAME

1 SINGING CONTEST

- The Singing Contest is a duel between Team A and Team B who will sing three songs randomly chosen by ET18K. The team with the highest total score wins the game.
- Press [RES] to finish the game.

2 WHAT SONG IS IT

- What Song Is It is a game where the players name the title of a song. After selecting the game level, ET18K plays a song selected randomly from the list. You should choose the correct title of the song among the four possible answers shown on the screen.
- If you are wrong, you will lose one LIFE. You will be offered one bonus song every five questions and correctly naming this song's title wins you one LIFE.
- Select the level of the game before the game starts.

[1] Difficult – LIFE 3, Music playing duration : 15 sec.

[2] Normal – LIFE 4, Music playing duration : 30 sec.

[3] Easy – LIFE 5, Music playing duration : 60 sec.

※ Pressing any other button aside from [1] ~ [3] sets the level automatically to Normal.

3 BINGO GAME (To be added in the second half of 2008)

SD CARD SUPPORT

1 BACKGROUND IMAGES

- If you have background images in the folder named BACKGROUND on an SD card, ET18K will display them on the TV screen.
- Changing the background image.
- Install "ET-MANAGER" using the CD provided with ET18K.
- Execute "ET-MANAGER".
- Select "BACKGROUND IMAGE" and change the format of image files that you have.
- When changing the image file format, these files are stored in a folder set by the user with the file extension ".ebj".
- Move the converted image files to BACKGROUND folder on the SD card, and insert the SD card into the slot of ET18K.
- ※ If the SD Card drive is designated as "E:\", and the converted image file is "image.ebj", move the "image.ebj" to "E:\BACKGROUND" folder.
- Supported image file formats.
- Bitmap file (*.bmp) • JPEG file (*.jpg, *.jpeg)
- TIF file (*.tif, *.tiff) • GIF file (*.gif)

2 MP3 (TO BE SUPPORTED IN THE SECOND HALF OF 2008)

※ ET18K supports SD cards up to 2 GB.

(4 GB and larger SD memories are to be supported in the second half of 2008.)

SETTING THE ENVIRONMENT

- 1 Press the [MODE][0] button to set the environment.
- 2 Finish the environment setting by pressing the [MODE] button.

3 HOW TO SET THE ENVIRONMENT.

- Change the setting by pressing the [1] ~ [9] keypads.
- Select an item using the [▼], [▲] buttons and change the setting with [▶/■], [◀/◀], [▶▶] buttons.
- Select an item with [▼], [▲] buttons, press the [0] button and change the setting with the [▼], [▲] buttons.
