

FCC RF EXPOSURE INFORMATION

WARNING! *Read this information before using your phone*

In August 1996 the Federal Communications Commission (FCC) of the United States with its action in Report and Order FCC 96-326 adopted an updated safety standard for human exposure to radio frequency electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this device complies with the FCC guidelines and these international standards.

Operating Requirements

This device was tested in notebook computers with the back of the device kept 0.5 cm. from the body. Please maintain a minimum of 0.5cm separation distance between the user's body and the back of the device to comply with FCC RF exposure requirements.
