**Subject:** Hi Barry, Let us see if this message works OK....

Good Morning Barry...

In response to your email, I offer the following...

- 1) The following exhibits need to be confidential:
  - Schematics - Receiver and Transmitter
  - Theory of Operation
  - Block Diagram
  - Test report
- 2) This product will now include a FCC Compliance statement separate from the front panel label.  
Attached to this email is a sample file of this new label.
- 3) Ken Boston, Lab manager, reviewed the Test Report, specifically page 20 and found the error you referred to and YES, the frequency column contains an error. Please switch 936 MHz to 836 MHz.

This should conclude all the FCC Filing requirements of FCC ID #:  
PCH-CPR45263.

Sincerely,  
L. S. Compliance, Inc.  
Jim Blaha  
Sr. Vice-President  
Quality Manager
