Since the ATCB grants for the above models are restricted with Grant Note '05', restricting the sales of product after July 10th 2005, Merrychef Limited have commissioned supplementary EMC tests on the Mealstream Commercial Microwave Oven models CTM3206015A and CTM3246015A to confirm compliance with the revised FCC CFR 47 Part 18 Section 18.307 rules.

Testing has been completed satisfactorily and Test Report No.: P4187/1SF has been issued by EMC Projects Limited (FCC Reg. No. 90573).

The revised requirements were met without the need for design modifications to the appliances.

Merrychef request the ATCB to review the supplementary test report and then remove the restriction '05' applied to the Grants for models PCVCTM3206015A and PCVCTM3246015A so that sales can continue after the cut-off date.

Although tests were not performed on the PCVCTM5206015A model, this model is identical to the PCVCTM3206015A except for the lower wattage heater element which is inert with regard to the conducted emission levels. We therefore request that the ATCB also remove the Grant Note 05 restriction for the CTM5 model by consideration of the CTM3 results from the supplementary Test Report mentioned above.

As instructed by the ATCB, Merrychef will supply the supporting documentation in the form of a Class II amendment for each Grant requiring the removal of the '05' restriction.

Yours sincerely

Paul Harrison
