This user manual contains important safety instructions and information for proper use of the device. Please follow the instructions in this manual carefully.

A Please keep the device away from places with high temperatures, high humidity or dust.

B In particular please avoid leaving the device in the car during summer if the doors are closed.

C Avoid shocks and do not let the device fall, as otherwise it may cause damage to the device.

D The Standby Time of the batteries may vary due to different environmental influences.

E We are not responsible for data losses that are caused by damage to the product, repairs or any other reasons.

F Do not open the housing of the device. Doing this will void your warranty claims.

G Do not use alcohol, thinners or petrol to clean the display – use only a dry cloth.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: any changes or modifications not expressly approved by the party Responsible for compliance could void the user's authority to operate this equipment.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
