Dear Sid Sanders,

This is a stand alone external ADSL modem.
We tested with connected the LAN port to Personal Computer through Ethernet Cable.
You can see in the picture.
Also we have connected the serial port cable only, because this is temporary purpose.

I have to reminde the exact model name is DL-2000E.

If you have any questions, please let me know.

Thank you.

Estech Co.,Ltd
Jay Kim.
