IC Label & Location for Intel Models 7265NGW and 7265NGW AN

- RSS-GEN 5.2 – The label text shall be legible without the use of magnification and if too small to meet this condition the label information may be included in the user manual.
- The 7265NGW and 7265NGW AN meet are considered to meet this criteria since the module size is 12mm x 16mm and 4pt font is the largest that can be used for module labeling which requires magnification for clear viewing.

Manufacturer & model number will appear on module for identification. Label will be replaced with laser etching on the metal shield for high volume manufacturing.

Modular Regulatory Certification Country Markings

A list of countries requiring regulatory markings is available. Note that the lists include only countries requiring marking but not all certified countries. To find the regulatory country marking information for your adapter, perform these steps:
