Ref: FCC Class II Permissive change for FCC ID: **PD98260NG & PD98260NGU**

Dear Examiner,

This is to request a Class II permissive change for module approval FCC ID: **PD98260NG** and **PD98260NGU**, originally granted on **5/27/2015**.

Change #1: This change establishes portable category modular SAR conditions at 14mm minimum separation distance of antennas to users based on maximum SAR value of 0.725W/kg (1g).

Change #2: This change is to update the filing for compliance data for 802.11 bgn, channel 13 (2472MHz) and 11F (2462MHz). These channels are supported by passive scanning only. Previous test software versión was not capable of supporting output values < 0dBm. Updated test software now enables transmission at low power to demonstrate compliance.

Sincerely,

A handwritten signature in black ink that appears to read "Steven C. Hackett".
