Risa Sato @ Lenovo Japan

# FCC requirements for e-label implementation

Lenovo will meet the following requirements without problem.

- Regulatory Information can be shown in no more than <u>three steps</u> without special accessories.
- The instruction how to access the information will be included in the User's manual
- Lenovo will provide Intel with User's manual including the instruction as submittal application.

B. Access to the required information on the e-label

1. Users must be able to access the information without requiring special access codes or permissions and, in all cases the information must be accessible in no more than three steps in a device's menu.[6]

2. Devices must not require special accessories or supplemental plug-ins *(e.g., the installation of a SIM/USIM card)* to access the information.

3. Users must be provided specific instructions on how to access the information. The instructions must be included in the User's manual, operating instructions, insert in the packaging materials, or other similar means.[7] Alternately, the access information may be available on the product related website with instructions on how to access the website provided in the packaging material.

4. The equipment authorization application for the device must clearly include the instructions for accessing information as part of the exhibit showing the label information.
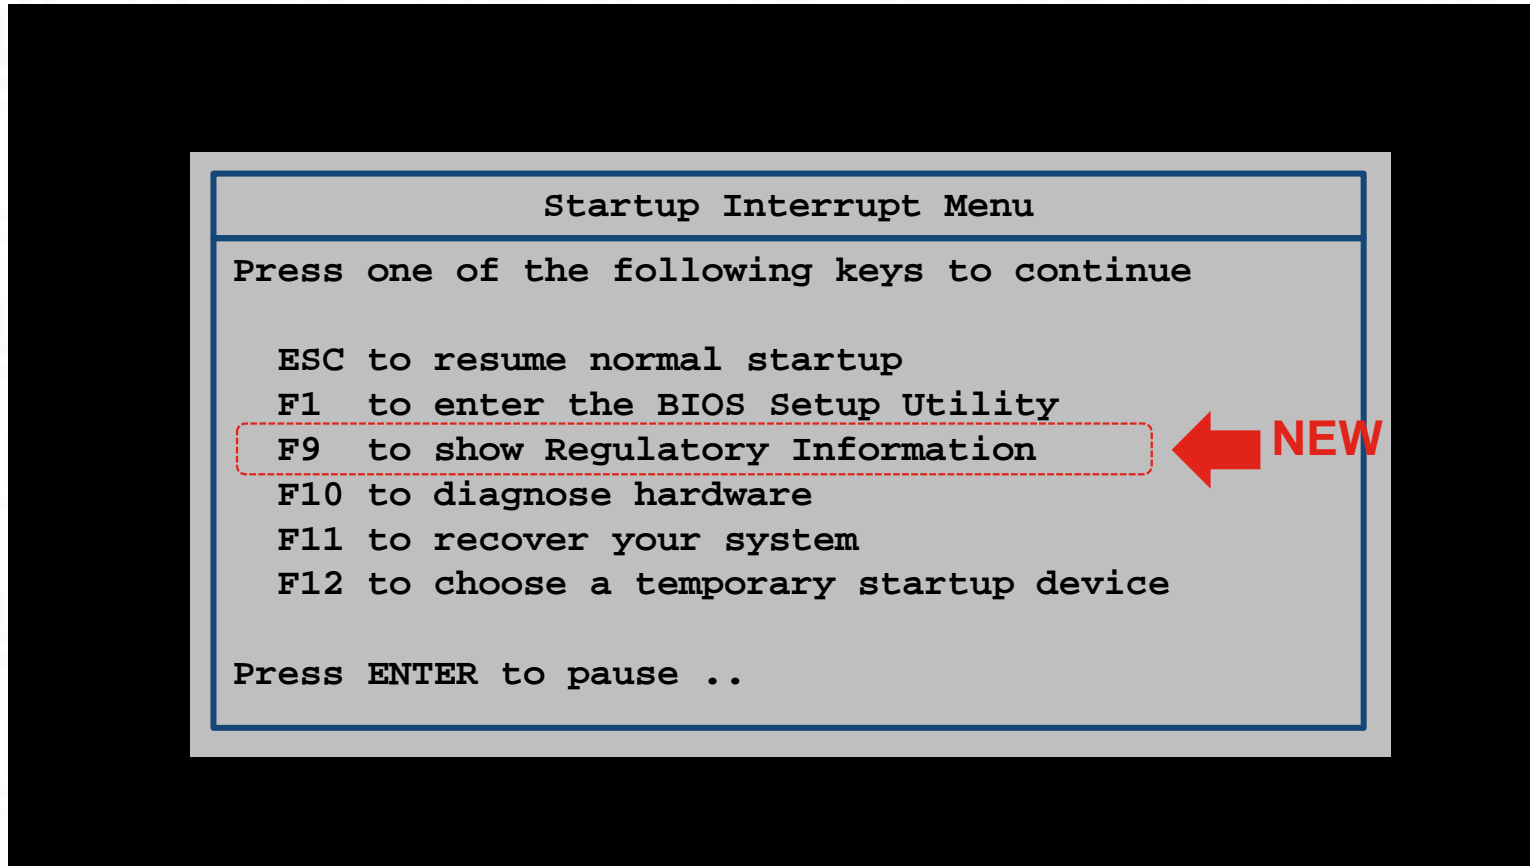

Power on the system

- Boot up screen is shown after pressing Power button

Step 1 : BIOS boot up

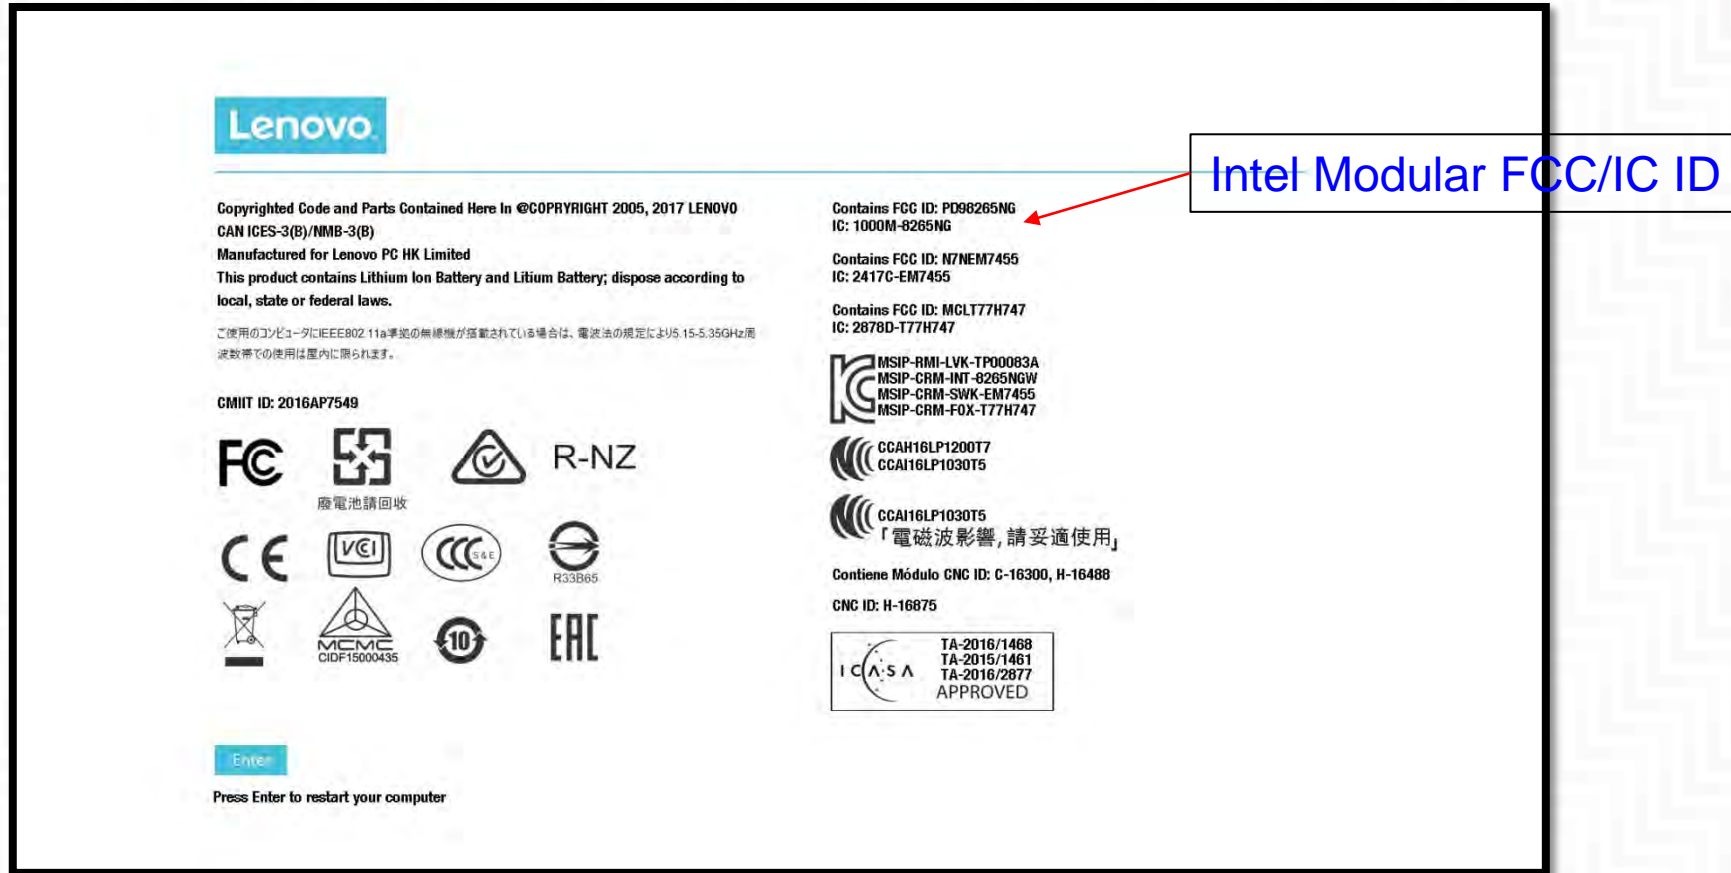

To interrupt normal startup, press Enter

- Press [Enter] key (clamshell products) / touch the prompt message (tablet products) to open "Startup Interrupt Menu"

  ---> Go to the next page

- Press [F9] key to enter "Regulatory Information" page directly (clamshell products)

  ---> Go to Page 6

Step 2 : Press [F9] key to show Regulatory Information

```
                    Startup Interrupt Menu

Press one of the following keys to continue

  ESC to resume normal startup
  F1  to enter the BIOS Setup Utility
  F9  to show Regulatory Information          ⬅ NEW
  F10 to diagnose hardware
  F11 to recover your system
  F12 to choose a temporary startup device

Press ENTER to pause ..
```

- Press [F9] key (clamshell products) or touch the Regulatory Information selection (tablet products) to open "Regulatory Information" page

Step 3 : Regulatory Information page is displayed

Intel Modular FCC/IC ID

* If [F9] key is pressed at Step 1, "Startup Interrupt Menu" is skipped and "Regulatory Information" page is displayed directly

THANK YOU
