

Declaration of Product Modifications

June 17, 2019

This is to request a Class II permissive change for FCC ID: PD9AX200NG, originally granted on 03/05/2019.

The major changes filed under this application are:

Change #1: Add host chassis, TONGFANG, model number: QC7.

Change #2: RF exposure compliance for host conditions with SAR measurement report. Conducted output power reduced through firmware.
(Only Wi-Fi power reduced, Bluetooth output power remains unchanged).

Change #3: Additional antennas, the antenna type is same, the antenna gain is lower than the original application.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven Hackett", with a stylized flourish at the end.
