F.3 Antenna host platform location and adjacent edge positions relative to the body

Information provided by the customer

Antenna Host Platform Location Information	Co-Location Antenna Separation																																	
The diagram shows a top-down view of a laptop's internal layout. A keyboard is centered, with a 'Main' antenna port on the left and an 'AUX' antenna port on the right. Two vertical dimension lines indicate distances from the keyboard area to the ports: 159.21mm on the left and 158.96mm on the right.	This diagram shows a detailed cross-section of the laptop's internal components, including the keyboard, display, and various electronic modules. Dimensions A through J are marked with arrows to indicate specific measurements: A is the total height, B is the width, C is the height from the top edge to the main antenna, D is the height from the bottom edge to the main antenna, E is the width from the right edge to the main antenna, F is the height from the top edge to the auxiliary antenna, G is the height from the bottom edge to the auxiliary antenna, H is the width from the left edge to the auxiliary antenna, I is the height from the bottom edge to the auxiliary antenna, and J is the height from the bottom edge to the table.

The laptop is open, and the main antenna is labeled. Dimensions are provided for the antenna separation: 320mm for the distance from the person's head to the antenna, 228mm for the height of the antenna from the desk, 229.07mm for the distance from the person's head to the antenna, and 3.85mm for the height of the antenna from the desk. The label 'MAIN Antenna' is placed near the antenna.
