Ref: FCC Class II Permissive change for FCC ID: **PD9AX201NG**

Dear Examiner,

This is to request a Class II permissive change for module approval FCC ID: **PD9AX201NG**, originally granted on **01/28/2019**.

Change #1: This change establishes portable category SAR conditions for the HP model HSN-I47C-4 PC with **WLAN TAS implementation**.

No changes made except for the WLAN TAS implementation. Our intention is to show a full PAG review was previously performed under KDB 968002. We believe this application meets the conditions for special RF exposure compliance. The exact same WLAN authorized modules are re-used in this PC with the exact same algorithm and validation methods for time averaging SAR as approved in KDB 968002.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven C. Hackett", written over a horizontal line.
