Model:NP930QED Input:20V == 3.25A(65W) Contains FCC ID:PDPAK21DZ
CAN ICES-3 (B)/NMB-3 (B) Contains IC: 1000M-AX271DZ Designed by Samsung
Manufactured in Vietnam BA98-03403A10 NP930QED-XXXXX S/N:XXXXXXXXXXXXXX 12.2021

Label Information

Note: Due to the small device size 12mm x 16mm it is too small to imprint the FCCID and IC ID on the module. The font size required would need to be < size 4 font and is considered to require magnification for legibility. The ID's will be placed in the Information Guide. External host labeling is still required once integrated into host.

FCC ID: PD9AX211D2

IC: 1000M-AX211D2

Subject: RE: Label Permission Request

Good Day Tim,

Label exemption would be acceptable for this device. Please place the label information in accompanying literature.

Regards,

Subject: Label Permission Request

Intel submitted an application to ACB in December. For the labeling exhibit they submitted the label with an explanation that the form factor has been accepted in the past by ISED. ISED asked for us to provide Intel's previous correspondence in order to proceed as well as something denoting appropriate sizes and the application has been in progress since December.

Our contact at Intel is fairly certain ISED has granted them permission in the past on this form factor, but has not had the time to investigate and provide the past proof and is currently "buried" in other priorities. Therefore on their behalf we are submitting the attached and requesting permission for the labeling to be placed into the manual based on the information provided.

They use the basic form factor for many devices and have several upcoming approvals based on the same form factor (known as D2 to Intel) as well. If possible we would like to obtain permission for Intel to place the labeling in the manual for all certifications that they use this particular form factor.

Could ISED please review the attached and provide feedback as appropriate?

Thank You,

Timothy R. Johnson, iNARTE Certified EMC Engineer (No. EMC-002205-NE) and Wireless Device Certification Professional (No. WDCP-100101)
