Ref: FCC Class II Permissive change for FCC ID: **PD9AX211D2**

Dear Examiner,

This is to request a Class II permissive change for module approval FCC ID: **PD9AX211D2**, originally granted for DSS, DTS,UNII on **02/26/2021** and for 6XD on **04/26/2021**.

Change #1: This change establishes portable category SAR conditions for the Dell model P175G convertible PC with Speed F-0G-FH-6165-001-00 and F-0G-FH-6165-001-00 antennas.

Our intention is to apply the PAG re-use process for granting approval due to the Dynamic SAR feature using G/Hall sensors. The seed PAG under TXSENS was previously granted with ATCB029687.

The WLAN TAS feature is enabled. The exact same WLAN authorized modules are reused in this notebook with the exact same TAS algorithm validation methods for time averaging SAR as approved by FCC.

 Sincerely,

By: _____
