Ref: FCC Class II Permissive change for FCC ID: PD9AX211NG

Dear Examiner,

This is to request a Class II permissive change for module approval FCC ID: PD9AX211NG, originally granted for DSS, DTS, UNII on 02/17/2021, for 6XD on 04/26/2021 and for UNII-4 on 08/29/2022.

The WLAN TAS feature is enabled. The exact same WLAN authorized modules are reused in this notebook with the exact same TAS algorithm validation methods for time averaging SAR as approved by FCC.

Change #1: The host HP model TPN-C154 is already approved for DSS, DTS, UNII under ATCB028462. Only the UNII-4 band and the TAS feature have been enabled.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven C. Hackett", written over a horizontal line.
