Ref: FCC Class II Permissive change for FCC ID: PD9AX211NG

Dear Examiner,

This is to request a Class II permissive change for module approval FCC ID: PD9AX211NG, originally granted for DSS, DTS, UNII on 02/17/2021, for 6XD on 04/26/2021.

Change #1: This change establishes portable category SAR conditions for the Dell model P162G Notebook PC with WNC DC33002QV0L and DC33002QV1L antennas.

The Contention based protocol (CBP) testing was done in conducted at the RF port of the module with a worst case of lower antenna gain of -2dBi. The lowest antenna gain of the host is 2.85 dBi passing the CBP requirement.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven C. Hackett", with a stylized flourish at the end.
