Ref: FCC Class II Permissive change for FCC ID: PD9AX211NG

Dear Examiner,

This is to request a Class II permissive change for module approval FCC ID: PD9AX211NG, originally granted for DSS, DTS, UNII on 02/17/2021 , for 6XD on 04/26/2021 and for UNII-4 on 08/29/2022.

Change #1: This change establishes portable category SAR conditions for the HP model HSN-I46C convertible PC with PIFA antennas part number 6036B0350401 (81EAB815.G21) and 6036B0350501(81EAB815.G22).

Our intention is to apply the PAG re-use process for granting approval due to the Dynamic SAR feature using G/Hall sensors.

The WLAN TAS feature is enabled. The exact same WLAN authorized modules are reused in this notebook with the exact same TAS algorithm validation methods for time averaging SAR as approved by FCC.

Sincerely,

A handwritten signature in black ink, appearing to read "Benjamin Lavenant", with a horizontal line extending from the end of the signature.

By:

Benjamin LAVENANT
