Dear Helen,

Replying your questions,

- #1 Please refer to page 7 of the revised user manual.
- #2 Please find revised test report. One additional plot has been added.
- #3 Please find revised confidentiality letter.

Best regards,

S. S. Liou

Question #1: The user manual does not contain labeling requirement as specified in 15.19. Please revise the user manual

Question #2: Please provide one more plot to show the device will cease transmission within 5 seconds after deactivation.

Question #3: Confidentiality requests must reference Section 0.459 at a minimum because this section provides the authority for such a request. Referencing Section 0.457 is not mandatory but it is suggested because this section lists what information is normally held confidential in equipment authorization filings. Please revise your confidentiality letter accordingly.

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note

that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
