

American Telecommunications Certification Body Inc.
6731 Whittier Ave, McLean, VA 22101

July 23, 2004

RE: Senton Enterprises Limited

FCC ID: PEG35170-B

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Technical information in the operational description states this device TX's at 2468.0 – 2479.7. However, the application appears to be for a 5 GHz. Please explain.
- 2) The schematics are missing for the RF portion of the device. Please update.
- 3) The users manual appears to be missing information required by 15.105. Please revise.
- 4) The BiLog antenna and possibly the preamplifier appears out of calibration during the test. Please explain.
- 5) The Base appears large enough that the label should include the 2 part FCC statements from 15.19(a)(3). Please add/correct.

A handwritten signature in black ink, appearing to read "Timothy R. Johnson".

Timothy R. Johnson
Examining Engineer
