February 15, 2004

RE: Senton Enterprises Limited

FCC ID: PEG35800-7

I have a few comments on the above referenced Application.

- 1) Both the base and handset appear to contain an RF module. Top and bottom photographs are required of these modules with the shields removed. Please provide.
- 2) A schematic for the TX portion of the device is required as specified 2.1033(b)(5) for the RF section. However, if the TX portion of this device is an OEM part other than the Grantee, as an alternative, you may provide a parts list that lists that shows that this part is provided by another manufacturer. Please provide either a schematic for the TX or parts list as specified. Additionally, if a parts list is provided, please explain if confidentiality is also requested for this and modify the confidentiality letter if required.
- 3) FYI...Note that this device contains a telephone interface, which is subject to Part 68 requirements. This application will only cover the Part 15 requirements of this device.

A handwritten signature in black ink, appearing to read "Timothy R. Johnson".

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
