

INTERTEK TESTING SERVICES

Purpose of Application

The purpose of this application is to report changes in the original certified product for production reason. The main modification is removing the circuitry of Caller ID feature. The details are stated as follows:

- Base Unit:
1. Use MCU, TMP87C405AM-BASE, instead of EM78911B to provide cordless phone controller only.
 2. Remove the corresponding components, C48, C49, R59, R60, which are for CID transmission circuit.
- Handset:
1. Use MCU, TMP87C405, instead of EM78860 to provide cordless phone controller only.
 2. LCD display for Caller ID feature is removed, and numbers of the function keys are reduced from 9 to 6 key buttons.

The RF modules of base unit and handset are remained the same.
