Subject: Limited Modular Approval Proprietary Integration Instructions

Ref: FCC ID: PEJ-9283080

The Xeta8 radio module is designed to be integrated only in host products that are designed and manufactured by XetaWave LLC. The Xeta8 is not intended for sale to third parties as a commercially available radio module.

The integration instructions required in KDB 996369 D03, Section 2 are proprietary in nature and are summarized in the confidential Xeta8 Operational Description provided under this certification.

XetaWave is the sole entity that is responsible for the design and manufacturing of all host products in which the Xeta8 is integrated. XetaWave verifies that each commercially available host product meets the requirements of 47 CFR Part 90 and Part 15.

Sincerely,

David Greene  
Senior RF Engineer  
XetaWave LLC
