

# 9. Marking layout

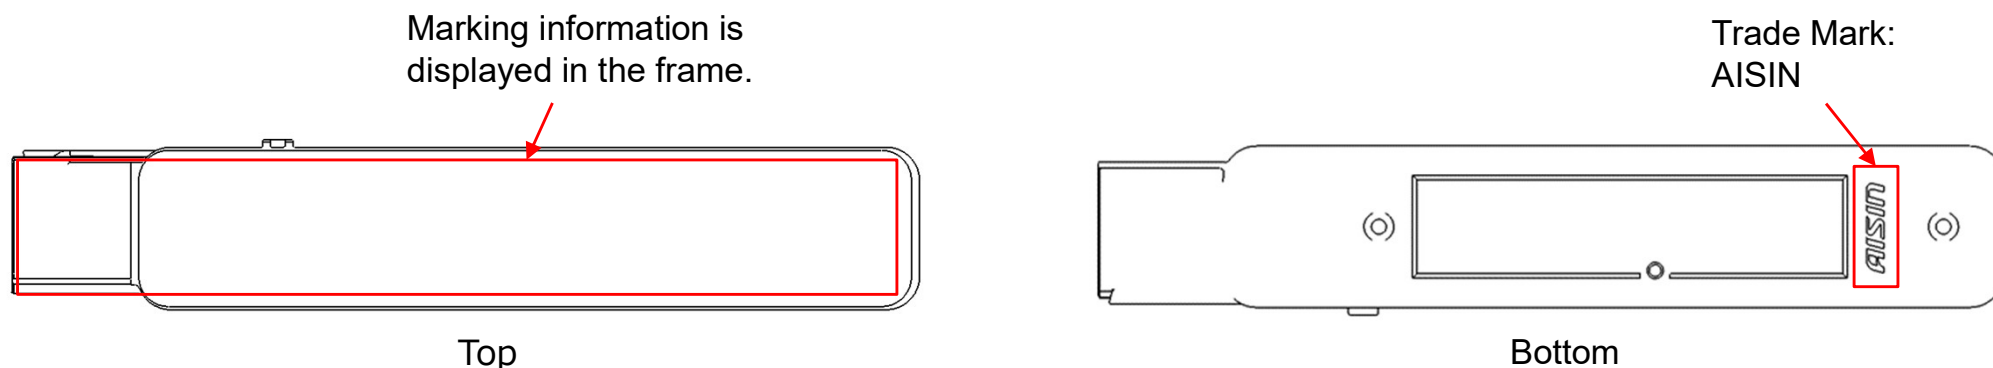

Figure 10 Marking layout

- The marking is displayed on the products by laser engraving. Therefore, the markings do not disappear easily.
- The manufacturer/importer information is described in the user's manual.
- The “ \* ” part describes the certification number after approval.
- The product traceability information (Lot number) is displayed in the hatching area.

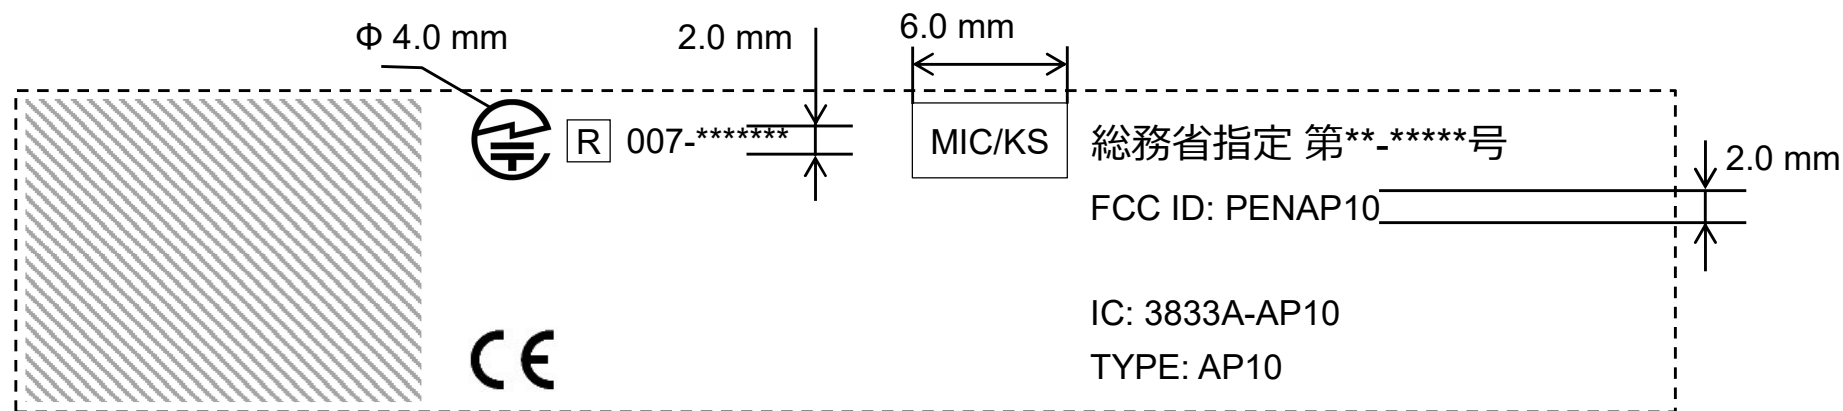

Figure 11 Marking information

“Attention”

- Marking layout, size and contents maybe changed.
