Subject: Instruction Manual/Compliance Statement for ASAT6 (Door/Trunk Oscillator)

Dear Sirs,

Our product ASAT6 is a Door/Trunk Oscillator for cars. It will be already installed in cars (as original equipment) when it will be placed into the US market.

We, AISIN SEIKI CO., Ltd., confirm that we do not issue any users manual and no advertising literature for this product.

Compliance Statement (FCC rules 15.19(a) and RSS-210): Because our transmitter is too small to place the compliance statement on it and because we do not issue any users manual for our transmitter, we hereby confirm that we will inform the car manufacturer that the compliance statement as follows must be included in the users manual of the car. The car users manual is used as a replacement for our products users manual. The compliance statement is as follows:

"This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation."

Information to users (FCC rules 15.21 and RSS-210): We confirm that we will inform the car manufacturer that the car users manual has to include information to the user. The information is as follows:

"Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment."

Yours Sincerely,

Hideo Haneda

Group Manager, Electronics Engineering Dept.
