

The image shows a green PCB with various components. On the left, there are two USB ports. In the center, there is a large circular silver component. To the right of the center, there is a black cable connector. The board is populated with numerous surface-mount components, including resistors, capacitors, and integrated circuits. Labels on the board include 'A750V2-0', 'A30C5', 'ETP', 'ET203', '94V0', and 'A440E9R'. A black cable is connected to the right side of the board.
