Re: Request for permissive change

Applicant: Waio Inc

FCC ID: PG2-TDA123GGT (FM Transmitter)

To whom it may concern,

Request is hereby submitted by Waio Inc for a permissive change to filing referenced above to reflect new frequency limits of 88.1MHz and 107.9MHz from 88.9MHz and 107.1MHz in the original filing. Due to a miscommunication, the EUT was originally lab tested at low and high frequency limits of 88.9MHz and 107.9MHz respectively. The product has a firmware adjusted frequency limits of 88.1MHz and 107.9MHz. The product was re-tested satisfactorily at the new limits per the attached report.

If you have questions or need further information, please contact the undersigned.

Sincerely,

Timothy J. DePumpo
President, Waio Inc.
