FCC Compliance statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning:

Use only shielded signal cables to connect I/O devices to this equipment.

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

1. Unpacking your LCD Monitor

- After you unpack your LCD Monitor, make sure the following items are included in the box and in good condition. If you find that any of these items is missing or appears damaged, contact your dealer immediately.
- This user's guide is based on HMM-L1500-M, and there are no Pivot function and USB Hub Terminal for the HMM-L1500

Notes

- ▶ These contents are subject to change the model type without prior notice for product improvement.

2. Product Features

15 inch LCD panel

using 15-inch LCD(Liquid Crystal Display) panel, it is designed as a slim-type and allows more room in your workspace for other peripherals.

Monitor Pivot features (HMM-L1500-M only)

Display screen can be rotated 90 degree to make easier work for word processing.

Ergonomic design

It has been designed to be versatile, ergonomic and easy to use.

Low Power consumption

Built-in VESA DMPS functions,
With its low power consumption the LCD Monitor helps you reduce your power bill.

Hi-quality Sound function.

It contains the separated hi-quality speaker system that can be attached to the monitor or stand-alone.

USB function (HMM-L1500-M only)

Built-in USB connectors support Plug and Play features

3. Safety Instructions

Precautions when install

High temperature can cause troubles. Avoid operating the monitor in extreme heat areas. Extreme temperature may cause discoloration or damages.

Avoid operating the monitor in extreme humidity or dusty areas. Extreme humidity may cause discoloration or damages.

Make sure to connect the power cord plug firmly to the wall outlet to prevent poor contact

Place the monitor on a flat surface to prevent it from falling.

Install it in a well-ventilated area or secure enough space for ventilation

It allows the input voltage range 110v - 220v automatically

Notes

- We always recommend you to utilize same input voltage for monitor and computer system. Otherwise, it can be damaged to your product.

Safety Instructions

Precautions when using

► Please read this manual and comply with the warnings and the procedures to avoid any serious electrical shock and other serious damage.

1

Do not remove the cover or attempt to service this unit by yourself. You may void the warranty. Servicing of any nature should be performed only by an authorized technician

 - ▶ Check the signal cable connection between computer and LCD Monitor

12. Specifications

▶ The specifications are subject to change without prior notice for product improvement.

LCD panel

- Type : 15" TFT(Thin Film Transistor) LCD panel
- Pixel pitch : 0.297 x 0.297 (HxV)mm
- Viewing Angle : 60 degree (L/R)
35/55 degree (U/D)
- Number of colors : 16M color (Dithering)
- Number of Pixels : 1024 x 768 (HxV) @ 60 Hz

Input connector

- 15pin D-sub

Power

- Input voltage : DC +12V 3.0A
- Power Consumption : 36W

Video signal

- Horizontal Frequency : 30~61kHz
- Vertical Frequency : 56~75Hz

Sound signal

- Sound output : 6W(L/R)
- Impedance : 8ohm

Dimension

- 384 x 216 x 390(WxDxH) HMM-L1500-M
- 384 x 195 x 395(WxDxH) HMM-L1500

Weight

- 7.11Kg (HMM-L1500-M)
- 5.38Kg (HMM-L1500)

LCD viewing Angle

- -5~30 degree

Environment

- Operating Condition : Temperatures 10 ~ 35C
Humidity 10~80 %
- Storage condition : Temperature -20 ~ 60C
Humidity 5~95%

AC/DC adaptor

- Model : CHC-036-02S2F/PW160
- Input voltage : AC110~220V 50/60Hz
- Output : DC +12V, 3.0A
- Manufacturer : ChungHwa Electronics/Alt Korea
