

FCC ID: PGI-HB-109

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Sliding and Standing Bluetooth Keyboard Case for Iphone4&4S

Designed in HongKong, Assembled in China

Sliding and Standing Bluetooth Keyboard Case for Iphone4&4S

User's Manual

Trouble Shooting:

If you are unable to connect the keyboard to your iPhone, please try the following :

*Check if the battery is low .When the battery is low,some keys will react slowly and even don't work . Then,you should charge the Battery

*Check the power switch,make sure it is on.When it is on ,the power light on the left top of the keyboard will flash for two seconds

*Restart the Bluetooth switch ,make sure your iphone can search this device

*Ensure the password for pairing is correct.

Caution:

*The case is made of plastic,please avoid any corrosion and leave it away from fire!

*Please operate according to the instruction in the user's manual,we would not be responsible for any damage caused by inappropriate operation!

Step I Place Your iPhone into the case

Step II Pair Your iPhone with the Keyboard

Note: This step is only needed when you first use this keyboard case

Turn on your iPhone and tap "setting"

Press the "Shift" key at the same time if you want to type the white symbols on the left top of some keys
Press the "Fn" key at the same time if you want to type the blue symbols on the left top of some other keys

Technical Specification Of the Product:

Bluetooth Specification ↑	Version 3.0
Operation Current ↑	3mAh
Standby Current	0.2mAh
Operation Voltage ↑	3.7V
Charging Voltage:	110-240V
Battery Type:	160mAh Lithium Battery
Charging period ↑	4hours VI For the first time, please charge for 12 hours VII
Duration of Charged battery:	45 days:

You can write message, notes and email with this keyboard instead of the touching keyboard on your iPhone

However, you can press "fn" + "the key with keyboard symbol" at the same time to get the touching keyboard back.

Tap "General"

And find the "Bluetooth" option

Slide the Bluetooth button to "on" and your iPhone will start to search Bluetooth devices

Enter the password on the Bluetooth keyboard then press the "Enter" key, then your iPhone is successfully paired (connected) with the Bluetooth keyboard

You should turn the switch in the keyboard to "on" position

Step III Start to use the keyboard

And active the Bluetooth button with a little stick

Then the Bluetooth signal light on the left top of the keyboard will be on

Now, your iPhone will find this Bluetooth keyboard

Then you should tap "Bluetooth Keyboard" option, then a blue window with a password will come out
