In re: Höft & Wessel AG
FCC ID: PGMHW86120001
FCC Part 15 C Certification

Applicant's declaration concerning RF Radiation Exposure

We hereby indicate that the product

HW 8612 / US

is considered to be a mobile transceiver.

The conducted output power is maximum 20 dBm. The internal antennas used for this mobile transmitter must provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

A safety statement concerning minimum separation distances from enclosure of the Basestation will be found in the user's manual to provide end-users with transmitter operating conditions for satisfying RF exposure compliance.
