Re: FCC US Agent Attestation

Pursuant to FCC 22-84 Report and Order and KDB 986446 D01 Covered Equipment v01, the Commission adopted new FCC requirements to protect the nation's networks and supply chains from equipment that poses an unacceptable risk to national security or the safety of U.S. persons. Specifically, the Commission adopted rules that prohibit equipment authorization for "covered" telecommunications equipment and video surveillance equipment produced by entities identified on the Commission's Covered List.

Certification designating a U.S. agent for service of process. As required by section 2.911(d)(7), the applicant must designate a contact located in the United States for purposes of acting as the applicant's agent for service of process, regardless of whether the applicant is a domestic or foreign entity.

The undersigned; Bob Kuzmich, at Industrial Scientific Corporation (FRN 0004291738), 1 Life Way, Pittsburgh, PA 15205; consents to be the designated agent for this service of process.

Industrial Scientific Corporation certifies that as of the date of the filing of the application, the applicant is not identified on the covered list as an entity producing covered equipment.

Industrial Scientific Corporation acknowledges to maintain an agent for no less than one year after the grantee has terminated all marketing and importation or the conclusion of any Commission-related proceeding involving the equipment. If the agent changes then the TCB and the FCC must be notified.

Regards,

Bob Kuzmich
Staff Certification Engineer
