Re: FCC Covered List Attestation

Pursuant to FCC 22-84 Report and Order and KDB 986446 D01 Covered Equipment v01, the Commission adopted new FCC requirements to protect the nation's networks and supply chains from equipment that poses an unacceptable risk to national security or the safety of U.S. persons. Specifically, the Commission adopted rules that prohibit equipment authorization for "covered" telecommunications equipment and video surveillance equipment produced by entities identified on the Commission's Covered List.

Certifications FCC ID: PHH-RGX concerning "covered" equipment. Section 2.911(d)(5)(i)-(ii).

Industrial Scientific Corporation ("the applicant") certifies that the equipment for which authorization is sought is not "covered" equipment prohibited from receiving an equipment authorization pursuant to section 2.903 of the FCC rules.

Thank you.

Regards,

Bob Kuzmich  
Staff Certification Engineer
