

Smartmiser Transmitter Antenna P/N: 1516703

Note(s):

- 1) Antenna length is designed to conform to 1/4 wavelength of transmit frequency [$c \text{ (m/s)} / 4 * f \text{ (Hz)}$] = 0.173 meters
- 2) Antenna material is black semi-rigid, stranded 20 AWG with teflon over-jacket MPN: 20-TE-1932 UL1213 BLK
- 3) Antenna wire material is manufactured by: Thermax CDT, Inc 8946 Winneka Ave, Northridge, California 91324
- 4) Approved supplier for antenna material is: Control Master Products, 132 Shary Circle, Concord, California 94520

Poolmiser Transmitter Antenna P/N: 1516703
