To: OET Dept.

Ref: FCC Class II Permissive change for FCC ID: PIDASMAX37

Applicant: Airspan Networks Inc.

Dear Examiner,

This is to request a Class II Permissive change for FCC ID: PIDASMAX37 most recently granted on 04/03/2008.

The change under this application is to extend the frequency band by 25 MHz (3650 MHz-3700 MHz). This is a client device and operates under the control of a master incorporating an unrestricted contention based protocol.

The original and subsequent grants were for the lower 25 MHz (3650 MHz-3675 MHz).

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,

A handwritten signature in black ink, appearing to read "Zion Levi", with a stylized flourish at the end.

Zion Levi
Compliances & Integration Engineer
