Dear Mr. Uganzenwoko,

Please find attached our response according to your question.

1. If your module supports any DL:UL split including 29:18 which suggests more down link symbols greater than 16, then the attestation statement might be misleading. Please change the attestation statement to reflect actual DU:UL split the device can support.

Response: Revised attestation statement file "UL_DL_statement_letter_23805_rev1" was uploaded on 2/07/2012
