FCC ID:PIDLTE700F

Air4G 700MHz FDD Tune up procedure

Each Air4G radio has been tested by automatic test station. As part of the test , the Maximum RF output power value has been measured. In case the RF output power is higher than specified in the System Description, the Air4G radio doesn't pass the test and gets Fail status.
The Air4G boards with Fail status cannot be assembled as a part of final product.

Name of authorized person: Zion Levy
Position: Compliances & Integration Engineer

A handwritten signature in black ink, appearing to be "Zion Levy", written in a cursive style.

Date: June 29, 2013
