Subject: Modification to EUT

Gentlemen:

We, Electro-Mech Scoreboard Company will implement the following changes during manufacturing of our RF Modem System – Tx.

1. Change the tee attenuator values as shown below:

Change R7 from 24 ohms to 33 ohms

Change R8 from 43 ohms to 27 ohms

Change R9 from 24 ohms to 33 ohms

This exact modification will be implemented and incorporated into our schematics and printed circuit board layout and will be contained in production devices when the product is released.

If you have any further questions, please do not hesitate to contact us at (478) 864-3366.

Sincerely,

Allen McMichael
President
