FCC Warning Statement

Per FCC Section 15.19 (3) and 15.19 (5), all devices shall bear the following statement in a conspicuous location on the device:

“ This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.”

When the device is so small or for such use that it is not practicable to place the statement specified on it, the information required shall be placed in a prominent location in the instruction manual or pamphlet supplied to the user or, alternatively, shall be placed on the container in which the device is marketed. However, the FCC identifier or the unique identifier, as appropriate, must be displayed on the device.

Generally, the FCC Warning Statement is provided with the product manual. A sample of the statement normally is presented in Appendix B of this report as reference.
