

The image displays two mobile phone circuit boards side-by-side. The left board features a black component labeled 'LTH054M' and a silver capacitor labeled 'S16.000'. The right board features a black component labeled 'LTM 450HTW' and a silver capacitor labeled '00091S'. Both boards are populated with numerous other electronic components, including resistors, capacitors, and integrated circuits, mounted on a green printed circuit board.
