**SUBJECT:** Confidential data in FCC Applicant Processing

<b>FCC ID:</b>	PKFEB329294A
<b>Applicant:</b>	OSRAM SUD S.p.A.
<b>731 Confirmation Nr.:</b>	EA102654

Dear Sirs,

referring to the documentation sent for the procedure "FCC Applicant Processing" we want to point out that the electric scheme with values, the block-scheme and the picture of the internal of the product can be accessible to and used by the FCC body regarding all controls deemed necessary, but should not be diffused to the public.

The reasons for this choice is the fact that the product is a new concept and that we want to keep it confidential as far as possible with respect to the competitors.

Don't hesitate to contact us for any further information.

Best regards

Lorenzo Baldo
